FINANCIAL.

OR several days we have offered through the columns of the St. Louis papers an 8% dividend paying, preferred stock, these dividends being payable 2% each quarter. A great many have taken the trouble to come to our offices, and after carefully investigating our plane and resources have invested.

We believe it will pay you to see us and avail yourself of the excellent opportunity to get 8% upon your money in a good solid business proposition. We are not new in the business, and offer you no prospects, but a bona-fide working plant aiready in operation. We are constantly adding to our equipments and earning capacities.

The American Lead & Baryta Co. has, as its holdings, lead, sine and baryts, vast timber tracts, good farms and stores; in all, 26,000 acres of land.

For several years our offices have been located in the Wainwright Building, from which we have just moved to our new centrally located offices in the Mercantile Club Building, at Seventh and Locust streets, representing several companies organized under the same management. In the past three years we have paid over \$400,000 in dividends to the stockholders, who number at the present time nearly 1,000, including bankers, merchants, business men, professional men, school teachers, and in fact every walk in life, to whom we can refer to whom we can refer.

The holder of this preferred stock, upon 60 days' notice, can have the same redeemed at this office for its face value.

JOHN MORTON MERCANTILE CLUB BLD'6 SEVENTH AND LOCUST STS.

STOCK MARKET DISPLAYS **GREAT ABSORPTIVE POWER.**

SPECIAL/TIES ARE AGAIN THE FEATURE.

Issues Affected, However, Are Less Numerous Than on Preceding Day-Leaders Are Lifeless.

New York, Aug. 1.—The stock market again demonstrated its good absorptive powers to-day during the period when profit-taking sales were being made to most the new demand.

profit-taking sales were being made to meet the new demand.

But rather singularly the tone showed more softness when the selling movement had mostly subsided. Specialties were the feature of the market as on the day before, and few of the great speculative leaders moved widely enough to call for special comment.

The specialties affected were less numerous than yesterday, and their movements were less sensational, probably accounting for the diminished influence of the special movements on the general tone of the market.

General Tone of the List Is Bullish and Market Shows Signs of a Revival.

There was a very notable access of activity in yesterday's market for local securities. All classes of stocks and bonus were in excellent investment demand, and the result was a more interesting session than had been held for many weeks. Tractions and banking issues were well taken and there was good scattered buying of the miscellaneous offerings.

United Railways common sold at \$30.75, Deferred at \$81. and the 4 per cent bonds at \$56.872, East \$81. Louis and Suburban is were taken at \$101.55.

Bank of Commerce again was a feature of the special movements of the special market.

The market of the world, based on the advancaty between the world, based on the advancaty per market of the world, based on the advancaty per market. The propose and the extractionary decoration and reported for the protreat in New York the price and the victory of the poper was uncertain and the dealings in that stock were not on an unusual scale.

Stocks and Bonds

HIGHER.

General Tone of the List Is Bullished to the group and the dealings in all the market.

Opper vectorities were strong in all the market.

The provide and the vector of the protreat in New York the price and the editions and reported for the protreation of in New York the price and reported for the protreation of in New York the price and the competition and reported for the protreation of in New York the price and the editions of the warket of the warket of the world, based on the advanced sharing a price and the edition of in New York the price and the victor of the protreation of in New York the price and the edition of in New York the price and the edition of in New York the protreation and reported for the world. The protreation

tively firm.

Efforts being made to settle the passenger rate war were helpful to the group. A published review of anthracite conditions expressing a hopeful view of the labor outlook had a perceptible effect on the coalers.

There was no striking movement in the group, but some of the high-priced coalers were quite frequently dealt in at the high-price ranges now ruling.

The publication of the Weather Bureau's weekly crop bulletin was the signal for a general recovery in the market, the condition there reported being regarded as extremely favorable.

The Atchison June earnings and the showing of that system for the fiscal year served to hold its price in check. Southern Railway's strong showing of earnings on the other hand, have had something to do with the demand which spring up for railgoad stocks in Southern territory. The movement was the more notable in view of the yellow-fever conditions.

One effect of the fever outbreak has been to check the demand for currency from New Orleans for cotton-moving purposes. Money conditions were not perceptibly altered.

The payment to the Government on a

Money conditions were not perceptibly altered.

The payment to the Government on a periodical maturity of a Central Pacific note makes the Subtreasury a large gainer from the market on operations thus far reported, but the Government interest payable to day will operate as an offset.

The unrespensiveness of the general surface of the market to the propping un of individual stocks as much as anything else led to the spilling out of stocks in the final hours, which decided the course downward after the varying fluctuations of the day, and the closing was easy, a number of the grain carriers showing point losses on the day.

Bonds were steady. Total sales, par value, \$2,52466. United States bonds were unchanged on call.

Positry.

Profile C SPECIAL.

New York, Aug. 1—Live positry—Receipts 3

Western and 5 Southern, and several small express lots. The market settled late yesterday evening at life on fowis, let on Western and 16 con Southern chickens, and the fresh receipts to-day left first hands at those prices. Involves are quite free for later in the week on chickens and fowis, and feeling none to arrong. Turkeys not so plenty and lower Geese steady. Pigress unchanged. Chickens, Southern and Southwestern life; apring chickens, western life; apring chickens, and old cocks be turkeys life. Ducks, Southern, peir, 46/50c. Other quotations unchanged.

Irressed poultry—Receipts 1.5h pkgs. There was very little fresh poultry on the market this mounting, but a few lots arrived later in the day and worked into consumption. Involves for later in the week did not show much increase in the supply, and with a well suitained demand there was a tone of firmness on all descriptions of destrable poultry. Choice large chickens, either dry-picked or scalded, sold promptly from ife to life, but so many of these arriving ran so small that 158/16 were the more general selling prices on sound stock. Small Southern and Southwestern brothers moved slowly at lower prices. Spring turkeys more plentiful and only fancy plump fell-broasted lifels exceeded he per lit, while a heavier weight but to spli in with frozen. Squabs quite plentiful and sold slowly at unimproved oriers. There was some movement in frozen reasting chickens, and about 2 cars changed hands on the basis of the per lb, birds averaging from 4 to 5 lbs. each. Ice-packed-Spring turkeys dry-picked, fancy, 2 lbs. 156-16.

New York Curs Market.

New Took, Aug. I.—Business was more active on the curb market to-daw Chicago Sobway continued very active and advanced to new both record prices. The volume of boiliness expanded on the advance. It chosed at Sh. as compared with 87% on the previous day. Greene Consolicated Cooper showed the effects of realizing sales. A large business was fone in this lance. It opened bishes, but did not hold the advance, closing at 35%, as compared with 85%, the high figure of the day. Unity 156 shures of Northern Beautities changed hands at 15. The state was

quoted at 275. Interboro Rapid Transit moved within a narrow range of prices, closing at 2155. Rubber second preferred gained alightly, Amer-ican Can shares held firm. The curb bond list showed unimportant changes, Japanese bonds closed fractionally higher at 1875. New York Bond Market

REPUBLIC SPECIAL

New York, Aug. L.—United States Government bonds closed steady. In the general bond market prices ruled strong, with the principal dealings in Central Leather 5s, Maxican Central first incomes, Southern Pacific refunding and Seet Sinking Fund.

DENIALS OF BLACK RUST CAUSE WHEAT TO DECLINE

SENTIMENT IN CORN 18 BULLISH.

Oats Are Strong in Sympathy With Corn, and Provisions Are Steady on Advance in Hogs.

Chicago, Aug. 1.—Official denial of serious damage from black rust caused a weak finish in the wheat market here today. At the close wheat for Sept. delivery was down 161c. Corn is up 1c. Oats show a gain of 165c. Provisions are practically unchanged. WHEAT.

WHEAT.

Generally clear weather Northwest developed evidence of lack of strength in wheat prices at the start, the opening quotations on Sept. being unchanged to like lower at 85½c to 85½c.

Sentiment, however, soon became bullish and prices made a quick rally. An official forecast of rain to-night in Minnesota and the Dakotas started active covering by shorts. In addition, foreign news confirmed in a general way what was heard here yesterday concerning poor prospects for the Russian crop.

There was also enlarged European inquiry for American wheat. This fact suggested a possibility of better export business in the near future. Numerous reports from private sources were received from the spring-wheat district, but advices regarding damage by rust were decidedly contradictory.

Some of the reports claimed that the crop would be of exceptionally good quality. Other reports asserted that great damage had already been done by the blight. During the first half of the session offerings were light.

As a result the price of Sept. advanced to 85½c. Later there was a complete reversal of sentiment, the market during the last hour becoming exceedingly weak. The principal cause for the late weakness was a report made by the Weather Bureau at Washington relating to spring-sown wheat.

SUMMARY OF ST. LOUIS MARKETS

Bears scored a victory against odds in yesterday's local grain market. A powerful coterie of professionals made a concerted effort to advance future prices on the showing of private-wire reports, but little attention was paid to them and they were forced to recode from their position toward the close of the session. The talk of damage by rust in the spring belt was not borne out by the weekly Government report, and weather indications in the Northwest were unmistakably favorable. British speculators were inclined to believe the statements that there would be a short crop in Russia. Operators here were more impressed by the almost certain prospect of an enormous yield of winter wheat. Reports from the Southwest were so bearish that they could not be ignored. The movement to all receiving points was brisk, and on all of the highways of commerce the grain was on its way from producer to consumer. The cash demand was small, indicating that those whose business it is to deal in the actual stuff were not affected by alarmist reports. There was brisk selling in the last hour.

Corn was strong during the greater part of the session, but the Sept. option closed with a slight decline. Dec. scored a small advance. Though ranges were narrow, the narket was inclined to follow wheat.

Sept. wheat opened unchanged and closed 1/61/2 off.
Sept. corn opened 1/2 up and closed 1/160 off.
Sept. oats closed 1/2 off.
Receipts of produce were in fair volume. Prices of fruits and vegetables were Local securities were active and strong. Tractions and banking issues had good

Yesterday's bank clearings were \$15,16, balances \$85,345. Discount rates were steady at 4 to 5% per cent.

Spot cotton was steady in the local market,
